### ation '90

We always do this on a late August Thursday, when it's always too hot to do anything. Still we always go to Keppel, on the assumption that we'll need a big hall because ALL THESE PEOPLE will show up anyway. Know what? They always do! And they love it! And everyone goes home grinning. Every time. Never fails.

8/23/90

### School Daze

## Field Days 90

I'm not getting out there and make an ass of myself. I gotta win

this race so I'll have some money to eat

lunch with tomorrow. I studied

my ass off last night, I deserve to win something. Where's Terry?

can't stay up with you, you'll drag me across the whole field

If we find him let's bomb him with these water bal-

loons. I could do that. I

grabbed the biggest water balloon

Look at the raccoon, isn't he cute. If you think you're tying me to your leg

you're crazy. You've got it tied too tight. You

you could find.

### Verbatim:

Look at that egg, it's leaking everywhere. What happens if you drop it? You get wet.

You're paying the doctor

bill if I fall off.

g o

O

Oh hell, our cup broke. It's

SHOW

# SGA

The Student Government Association has made it possible for an individual student's voice to be expressed and heard. The SGA encourages students to participate in many of the activities and programs it is responsible for planning. Such activities include Spring and Fall Field Days, Ms. RCCC, Halloween,

AIDS Awareness Week and Valentine Day.

The Student Government Association also encourages all students to become involved in their community. It does this by inviting students to do their part in commuity service activities convering a wide range: these include the Queen

and King of Hearts, Blood-mobile visits by the American Red Cross, the Angel Tree and White Christmas. Though these specific activities and programs take place at particular times of year, SGA is constantly working for a better environment for all the students at RCC.

Officers (from left): Carla Moore; David Harrison, president; Gina Hess.

### Delta Epsilon Chi

This year marked the beginning of a new organization at RCCC. Delta Epsilon Chi was formed to promote the interest of business students with career objectives in marketing, management and merchandising. The club is open to all business students who have had previous marketing classes. Delta Epsilon Chi trains students by helping them to develop self-confidence, high ethical business standards, leadership characteristics and the skills necessary to succeed in marketing careers. This organization offers students a creative and exciting way to enhance the educational process.

The club also sponsors several fundraisers throughout the year, including bake sales, raffles and civic projects such as clothing drive for the battered women's shelter and Adopt-a-Family at Christmas.

Officers (from left): Standing: Linda McWhorter; Crystał Gilbert; Terry Closner; Yolanda Hooks; Shirley Eubanks, president; Ed LaFrage; Patricia Nichols, Amelia Hasty. Seated: Melinda Watkins; Linda Howell; Robert Hartsell; Carla Hunter.

Phi Beta Lambda Business Club of RCCC is a student leadership organization. It was formed for the purpose of providing students with further education and insight into the areas of business outside the regular classroom experience. It is open to all majors; however, Business Technologies majors are highly encouraged to join. The club offers special events, and tours of area businesses and business departments of area colleges and universities are taken. Each year Phi Beta Lambda holds special seminars to help students with academic and career objectives. They have held fundraisers, including a successful pizza sale in November.

Twelve members of Phi Beta Lambda attended the Fall Membership Training Conference at Appalachian State University and received second place for a recruting membership display. These conferences enable students to interact with other students and professionals who share the same interests. Phi Beta Lambda is a good example of a club that is educating members for a successful future.

From the S & L crisis to the crisis in the Gulf, 1990 was a pretty happening year.

In January, Panamanian President Manuel Noriega surrendered to US troops on drug trafficking charges. A little farther east, Germans began picking away at the Berlin wall, hoping to speed up the reunification process.

February saw South African anti-apartheid supporters rejoice as Nelson Mandela was released from his two-and-a-half decades' imprisonment. In the US, after reviewing the mess left by the savings and loan disaster, experts announced that it will cost every man, woman, and child \$150,000 to make up the loss.

March made its mark on the year when an arson fire in an illegal Bronx nightclub killed 87 people. In other disaster news, the postal service announced that the price of a stamp would hit 30 cents to help recoup the agency's \$4 million-a-day losses.

In April Michael Milken's world took a plunge as he pleaded guilty to fraud on Wall Street and was ordered to pay a \$600 million fine. May left its impression on the year as a Japanese art lover bought Van Gogh's painting of his doctor for \$82.5 million. In Washington, the Supreme Court ruled that the "multiple personality" legal defense was constitutional.

June brought peace to one part of the world as Contra commanders surrendered their weapons to new Nicaraguan President Chamorro, ending the civil war that killed 30,000 people. At home, NASA's \$15 billion Hubble Space Telescope was discovered to need bifocals.

## Just Before A War

July was a hot month in more than just the temperature as the Dow Jones Industrial averages closed at 2,999.75, a record high. August's events claimed story-of-the-year status as Iraq overran neighboring Kuwait after a dispute over oil and frontier. The Kuwaiti royal family fled to Saudi Arabia and the United Nations Security Council passed 12 sanctions against Iraq. Once again America began a military buildup in a remote corner of the globe.

In September the prime ministers of North and South Korea met for the first time to improve relations in the divided country. In the US, concern was once more focused on the quality of American schools and what could be done to improve them.

October brought joy and peace to millions as, after 45 years of separation, East and West Germany reunited. Amid some jitters, the wall came tumbling down.

In November, British Prime Minister Margaret Thatcher announced her resignation and the country formed an entirely new government under new PM John Major.

December rounded out the year with the election of Lech Walesa as President of Poland and the US Commerce Department steadfastly denied that we are heading for a recession. Well, too late for one in '90, anyway. Stay tuned, kids . . .

Foreign Exchange Market sells US uary 17, 1991, just after the an-US dollar opened high against the after the announcement. (AP

Above: Secretary of State James A. Baker testifies on Capitol Hill December 5th before the Senate Foreign Relations Committee. Baker told the committee that the US will strike "suddenly, massively and decisively" if military force is needed to get Saddam Hussein out of Kuwait. Below: 1990 file airview of the nuclear-powered aircraft carrier USS John F. Kennedy, which as of January 15th, 1991, was on station and ready to send its planes to attack Iraq. (AP LaserPhotos)

MANAGEMENT

G EDUCATION ET

Spectrum staff: From left, Christine Ball; faculty advisor Davis A. March; co-editor Nichole Furr; Becky Upright; co-editor Toni Gilbert.

1991's book was called simply "Images" after the antidote we hoped the silence of pictures would offer to the year-long, and frequently overwhelming, war of words that has consumed the air. They're not all pleasant, but many were memorable; and we try always to keep in mind that the purpose of a book like this is to prove to the future that the past never stopped believing that life would go inevitably, toughly, on.

This year's volume was brought to you by our smallest staff yet; and they were a phenomenon of efficiency and passionate concern for detail. My profound respect and my heartfelt thanks go to these four admirable young women. Our collective gratitude, as usual, to the unsung heroes in the various offices on these campuses (note the new absence of distinction in that connection — we are now one BIG place!) who know which buttons to push. As usual, thanks to JoAnn Thomas of Jostens (née Hunter) for her unflagging service with a smile and for her friendship. To the Post for pix. Oh, yes, and to Bill and Becky for lots of really terrific, different photos.

And that closes the door on one more, boys and girls . . .
